EDUCATION

Kerala University of Digital Science and Innovation Technology

Present

Master of Science

Data Analytics with specialization in Bio AI

Jain University,Kochi

December 2019 - June 2022

Bachelor of Science

forensic science

Overall Percentage: 68.3

CARREER OBJECTIVE

As a dedicated Bio AI student, I am passionate about applying cutting-edge artificial intelligence techniques to advance biological research and healthcare. My goal is to contribute to innovative projects that use machine learning and data analysis to solve complex biological problems, improve medical diagnostics, and advance personalized medicine. With a solid foundation in both biology and AI, strong analytical skills, and hands-on experience in computational modeling and data interpretation, I am eager to join a dynamic team where I can apply my knowledge and continue to grow professionally in the field of Bio AI.

PROJECTS

Fingerprint analysis in fingerprint Bureau

- Involved in the identification and comparison of fingerprints to assist in criminal investigations
- Identified Uniqueness,Types of Fingerprint Patterns,Collection Methods,Analysis Process etc

TECHNICAL STRENGTHS

Familiar with Github

git add, git commit, git push

Excel,Word

Blast

PROGRAMMING LANGUAGES KNOWN

Python

R

EXTRA-CURRICULAR

sports secretary(DUK)

Active core member of Social Engagement cell

CERTIFICATIONS

Google cloud(Data Analyst learning path)

present

Cyber Forensic

PERSONAL TRAITS

Leadership quality

communication skills

Creative Thinking and problem solving skills.
