Profile

Self-motivated entry level student pursuing MSc Data Analytics and Geoinformatics with a strong foundation in spatial data analysis, GIS software, and data science methodologies. Passionate about contributing to impactful projects and furthering professional growth in the field of Data Analytics and Geospatial technology.

Skills

- | | | |
|-----------------------|----------------------------|----------------------------|
| • Data Analytics | • Python programming | • R programming |
| • ArcGIS Pro & QGIS | • Google Earth Engine | • Cloud computing(AWS) |
| • Power BI | • PostgreSQL | • Rasterio & Geopandas |
| • Surveying & Mapping | • Microwave Remote Sensing | • Spatial & Image Analysis |

Education

MSc Data Analytics and Geoinformatics, present
Digital University Kerala

Bsc Geography, Calicut University 2020 – 2023 | CGPA: 8.6
Graduated as University Rank Holder

Higher Secondary, 2020 | CGPA: 9.9
Kerala Higher Secondary Board of Examination

SSLC, Kerala State Board of Secondary Education 2018 | CGPA: 9.7

Certificates

Completed Google Cloud Career Launchpad on "Data Analyst track" –

Completed an online course on “Geoinformatics for Disaster Management” from Indian Institute of Remote Sensing (IIRS) by ISRO

Projects

Working on a mini project on the topic of “Identifying Vulnerable Open Dumping Solid Waste Sites by GIS Mapping and Spatial Regression Model.”

Done UG project on the topic “Geographic analysis of indigenous peoples in Parambikulam Tiger Reserve”
