About Me

I am a dedicated and enthusiastic student specializing in Data Analytics and BIO AI. I have developed a strong understanding of the regulations and high-quality standards required in industry through my coursework and projects. I am eager to apply my analytical skills and problem-solving abilities to real-world challenges, driving data-driven decision-making and innovation.

Education

Digital University Kerala, Trivandrum

2023 - current

Msc Data Analytics & Bio AI

School of Technology & Applied Science, Chuttipara, Pathanamthitta

2020 - 2023

Bsc Cyber Forensic

CGPA: 6.04

RRVGHSS, Kilimanoor, Trivandrum

2018 - 2020

Science

CGPA: 7.0

CSIEMHSS, Attingal, Trivandrum

2017 - 2018

SSLC

CGPA: 9.5

Projects

Face Recognition Using Facial Sketch

- Identification of facial identification for investigation purpose.
- VGG16 algorithm is used to improve accuracy.
- Used **Flask** as the backend.
- Utilized **HTML** and **CSS** for the frontend design.

Credit Card Fraud Detection.

- * Developed a machine learning model for real-time credit card fraud detection and Used different Machine Learning models for classification.
- * Evaluated and compared the performance of different models using metrics such as precision, recall, F1-score and precision.

Skill and information extraction from job posting.

- * Implemented custom NER models to identify and extract skills and other relevant entities from Public job descriptions.
- * Key Technologies: Python, spaCy, Natural Language Processing (NLP), Named Entity Recognition (NER), Text Preprocessing

Technical Skills

Languages: Python, Beginner in Java and C, C++, Basic R Programming

Frontend: HTML

Databases: PostgreSQL

Developer Tools: VS Code, GitHub

Skills

Data Science: Machine Learning, Data Analysis, Data Exploration, Data Visualization

Language Skills: Malayalam (Mother Tongue), English, Hindi

Internship

- Intern at cyber crime police station
- Involved in monitoring networks for security breaches, analyzing logs, and identifying potential threats

Certification

Google Cloud : Data Analyst Learning Path

- Completed a self-paced online course on Data Analyst Learning Path provided by Google Cloud
- Acquired knowledge and hands-on experience in Looker, Data Studio, and BigQuery. Experienced in building reports, dashboards, and data models in Looker
- Familiar with data exploration techniques, such as creating derived fields, filtering, and pivoting data
