Highly motivated MSc Data Analytics and Geoinformatics student. Passionate about using programming and GIS to extract valuable insights from diverse datasets. My background in programming, data analysis, and machine Learning equips me to handle complex data challenges. Eager to contribute to a dynamic team environment where a strong commitment to delivering impactful results and data-driven decision-making is crucial.

Education

M.Sc Data Analytics and Geoinformatics

2023 - Present

Kerala University of Digital Sciences and Innovations
Thiruvananthapuram, Kerala

1st Sem CGPA-7.02/ 10

B.Sc Geology and Water Management

2019 - 2022

Bishop Kurialacherry College For Women, Affiliated to Mahatma Gandhi University,
Kottayam, Kerala

CGPA - 8.28/10

St.Teresa's Higher Secondary School

2017 - 2019

Higher Secondary Education, Vazhappally, Changanasserry

CGPA - 8.6/10

Kristu Jyoti HSS School

2017

SSLC, Chethipuzha, Changanasserry

CGPA - 9.8/10

Skills

- Python, R, SQL
- Amazon Web Service
- Google Cloud Computing, Power BI
- Excel, Word, Powerpoint
- SNAP, GeoDa
- ArcGIS Pro, QGIS, Google Earth Engine, Arc Map
- Remote sensing Applications
- Report Preparation and Writing
- Project Management and Presentation Skill
- Critical Thinking

Certifications

- Introduction to Data Analytics on Google Cloud
- 3 months training in Python and Database Connectivity from Darsana Academy, Kottayam
- 3 months advanced training in GIS from Geospatial Campus, Kakkanadu, Kochi

Project

A case study on the nature, origin and emplacement of mafic, ultramafic rocks including Kimberlite in the Eastern Darwar Craton, Vajrakarur, Andhra Pradesh

- Identified potential geological indicators for kimberlite exploration in the region
- Utilized geochemical analysis, field mapping) to understand the formation and emplacement of these rocks.
