Panayil Veed Amballoor, Andoorkonam
P. O. Thiruvananthapuram
pin: 695584

SKILLS

- **Programming & Data Analysis:** Python, SQL, Excel
- **Machine Learning & Libraries:** TensorFlow, BERT, scikit-learn, NumPy, Pandas
- **Data Visualization:** Matplotlib, Seaborn, Power BI
- **Tools:** Git, Jupyter Notebook, Looker, Visual Studio Code
- **Mathematics & Statistics:** Probability, Statistics, Optimization, Calculus, General Math
- **Soft Skills:** Strong analytical thinking, problem-solving abilities, effective communication, teamwork.

EDUCATION

Master of Science in Data Science and Computational Science

Digital University of Kerala

Mangalapuram, Thiruvananthapuram
2023 - 2025

Bachelor of Science in Mathematics

T K M College of Arts and Science

Karicode, Kollam
2019 - 2022

Higher Secondary Education

MSMHSS

Chathinamkulam, Kollam
2017 - 2019

CERTIFICATE

- [Google Cloud Data Analyst Track](#)
- [Google Cloud Generative AI Certificate](#)

PROFILE

Analytical and detail-oriented Data Scientist with a strong academic background in Data Science and Mathematics. Proficient in utilizing advanced data analysis techniques and machine learning algorithms to drive business insights and support decision-making. Demonstrated experience in project development and research, with a proven ability to transform complex data sets into actionable strategies. Eager to contribute analytical expertise and technical skills in a dynamic team environment.

WORK EXPERIENCE

Data Science Intern

Prodigy Infotech

September 2024

- Gained hands-on experience with data cleaning and preprocessing using Python libraries such as Pandas and NumPy.
- Data Analysis & Cleaning: Performed data cleaning and exploratory analysis on real-world datasets, including population and Titanic data.
- Predictive Modeling: Built a decision tree classifier for predicting customer behavior with demographic and behavioral data.
- Sentiment Analysis: Analyzed Twitter sentiment data to gauge public opinion, utilizing NLP and visualization techniques.

PROJECTS

News Summarization App

- Objective: Developed an application to summarize news articles for improved user experience and engagement.
- Role: Led the technical development using NLP techniques and BERT model for text summarization.
- Skills Utilized: Python, TensorFlow, Data Analysis, Natural Language Processing.
- Developed a Streamlit application to summarize news articles, enhancing user experience and engagement.

Analyzing Wind Data for Energy Feasibility

- Objective: Conducted an analysis of wind data from NASA Earth around the DUK Campus to assess the feasibility of harnessing it as renewable wind energy.
- Skills Utilized: Excel, Data Visualization, Statistical Analysis.
- Impact: Produced a detailed report that guided stakeholders in assessing renewable energy potential for the campus.
