CAREER OBJECTIVE

Aspiring Data Analyst with a solid foundation in statistical analysis, data manipulation, and visualization. With a background in Botany and Biotechnology and a Master's in Data Analytics with Bio AI, I am passionate about leveraging machine learning, AI, and NLP to derive impactful insights at the intersection of biology and technology. Seeking an entry-level role to contribute to data-driven, innovative projects.

EDUCATION

Kerala University of Digital Sciences, Innovation, and Technology (Digital University Kerala), Thiruvananthapuram 2023 - Present

Master of Science in Data Analytics with Bio AI

Sree Narayana College of Technology, Vadakkevila, Kollam 2020 - 2023

Bachelor of Science in Botany and Biotechnology

CGPA: 8.166

EXPERIENCE

Data Science Intern August 2024
Prodigy InfoTech

- Conducted data cleaning and exploratory data analysis (EDA) on diverse datasets to identify trends and insights.
- Designed and implemented a decision tree classifier, improving data classification and predictive accuracy.
- Analyzed and visualized sentiment trends in social media data, aiding in strategy development and decision-making.

PROJECTS

Study on the Cardioprotective Effect of Conessine on Experimental Ischemia-Reperfusion Injury 2023

- Conducted research at the Centre for Research on Molecular and Applied Science, Thiruvananthapuram, exploring the cardioprotective effects of conessine in ischemia-reperfusion injury.

Heart Attack Prediction using Machine Learning 2024

- Developed and evaluated five machine learning models to predict heart attack risk, utilizing diagnostic data for enhanced accuracy.

Sentiment-Based Music Recommendation System 2024

- Built a recommendation system integrating facial emotion recognition with deep learning, providing personalized music suggestions to enhance driver experience and safety.

Disaster Tweet Classification 2024

- Created a tweet classification model to identify disaster-related tweets using NLP techniques, including BERT, Random Forest, and Logistic Regression models.

TECHNICAL SKILLS

Microsoft Excel, Power BI, BLAST

Python, R, SQL, HTML, Basic data structure

TensorFlow, PyTorch, Sklearn

CERTIFICATIONS

Google Cloud - Data Analyst Learning Path

Generative AI Learning Path

EXTRA-CURRICULAR ACTIVITIES

Volunteer, Social Engagement Cell

NSS Volunteer

PERSONAL TRAITS

- Effective communicator with strong motivation
- Skilled in time management and task prioritization
- Creative thinker with an organized and analytical approach
- Collaborative team player with a methodical work style
