PROFILE

Aspiring data analyst with a strong background in geography and data analytics. Skilled in Python, R, QGIS, and machine learning. Passionate about leveraging data to solve real-world problems, with a focus on geo-informatics and socio-economic research. As a Geography graduate and currently pursuing my M.Sc. in Data Analytics and Geoinformatics at the Digital University of Kerala, I bring a unique blend of spatial understanding and analytical prowess to the table. My academic journey has equipped me with a solid foundation in geographical concepts while honing my skills in data analysis and geoinformatics. With a passion for leveraging data-driven insights to address real-world challenges, I am eager to contribute to projects at the intersection of geography and analytics. My goal is to apply my knowledge and skills to make meaningful contributions in fields such as environmental sustainability, urban planning, and location intelligence.

EDUCATION

Digital University of Kerala M.Sc Data Analytics with Specialization in Geo-informatics (Pursuing)	<i>September 2023 - March 2025</i> 1st Sem CGPA: 8.4/10
