EDUCATION

Kerala University of Digital Science and Innovation Technology

Master of Science

Data Analytics with specialization in Bio AI

Yenepoya Institute of Arts, Science ,Commerce and Management *July 2020 - May 2023*

Bachelor of Science

Forensic Science Data Analytics and Cyber Security

Overall Percentage: 71.0

CAREER OBJECTIVE

I am seeking an opportunity to leverage my expertise in Data Science and Bio AI to contribute effectively in healthcare and data science sector. With a strong background in data analytics and machine learning, including data interpretation, artificial intelligence, I am committed to join an organization employing ethical and robust methodologies continuously striving for excellence. I would like to use my knowledge in areas to contribute heavily to the healthcare and related sectors by applying my expertise in a role that bridges the gap between cutting-edge technology and real-world challenges.

PROJECTS

Simple Pentest Lab

- We made a pretend laboratory where we can test computers if they are safe from potential break in.
- A virtual pentest lab is like a special playground where people can practice different ways to test security of computers.

"Digi Kudumbashree" as part of Digital Digital Access for Community Empowerment

- We proposed a solution for improving the ledger collection system, loan system and other services provided in focus groups of Pullampara.

1 month internship with Kerala police, Calicut

TECHNICAL STRENGTHS

Familiar with Git command line git add, git commit, git push
