Professional Experience

Data Scientist - Intern

Ospyn Technologies

08/2024 – present

Trivandrum, Kerala

- On-site

Projects

Resume Parsing and Screening using NLP

- Developed an advanced resume parsing system using Spacy for Named Entity Recognition (NER).
- Built the final model using BERT to enhance extraction accuracy.
- Deployed the model in Streamlit, enabling swift and accurate candidate evaluation.

Pneumonia Classification using Deep Learning in Healthcare

- Designed a CNN-based model to accurately classify pneumonia from medical images and set of symptoms.
- Enhanced diagnostic accuracy through advanced deep learning techniques and deployed it using Streamlit.
- Contributed to timely treatment decisions by improving pneumonia detection processes.

Dace Project 2024

- Developing "Career Quest, a gamified app that engages students with interactive exploration of job opportunities and educational paths.
- Promote informed decision-making by integrating gamification into career and education guidance.

British Airways Data Science Simulation

- Conducted web scraping using BeautifulSoup to gather customer review data.
- Performed data analysis, sentiment analysis, and created word clouds.
- Developed a predictive model using machine learning techniques to enhance customer insights.

DUK MealMate: Chatbot Coupon system

- Created a web-based chatbot application using Flask, HTML, and CSS.
- Implemented a conversational interface for seamless meal coupon purchases.
- Captured user details and dietary preferences to generate personalized coupons

Credit Card Fraud Detection Using Machine Learning

- Implemented a credit card fraud detection system utilizing machine learning techniques.
- Analyzed transaction patterns to identify and prevent fraudulent activities.

- Improves the accuracy and speed of detecting fraudulent transactions, reducing financial losses and protecting customer information.

Education

MSc Data Analytics and Bio AI	Present
Kerala University of Digital Sciences, Innovation and Technology	Trivandrum
BSc Botany	2023
Bharata Mata College (Mg University)	Ernakulam
CGPA: 9.09	
Class XII	2019
Kerala State Board	Ernakulam
Percentage: 96.4	
Class X	2017
CBSE	Ernakulam
CGPA: 10	

Skills

Python | Pandas | Numpy | SQL | Natural Language Processing | Machine Learning |
Predictive Analytics | R Programming | Power BI | Looker | Git | Power BI |
VS Code | Scikit-Learn | Excel | Tensorflow | Communication | Flask | Postman |
Streamlit

Certificates
