Technical Skills

Languages: Python, R, C, Java, HTML/CSS, DBMS-SQL(Postgres)

Frameworks: Django

Libraries: Pandas, Seaborn, Spacy, Scikit-Learn, NLTK, NumPy, Matplotlib, Tensorflow

Developer Tools: Databricks

Education

Digital University Kerala Sep 2023 - Present | M.Sc in Data Analytics with Specialization in Bio AI

Relevant Coursework: Data Analysis, Python Programming, Data Structures, Natural Language Processing, Deep Learning and Generative AI, Information Retrieval, Big Data and Cloud Computing Technology, Molecular Biology and Bioinformatics, Healthcare Analytics.

KAHM Unity Women's College Manjeri July 2020 - March 2023 | Bachelor's in Computer Science

Relevant Coursework: Computer Fundamentals and HTML, C, Data Structures and Algorithms, Java, Object Oriented Programming, Python, DBMS, JavaScript and PHP, Operating Systems, Computer Networks, Software Engineering.

Project Work

- **Custom Named Entity Recognition using Spacy Library:** Developed a machine learning project in NLP for custom named entity recognition using Spacy library with climate change data.
- **Image Encryption and Decryption using Chaotic System:** Developed a project which encrypt and decrypt an image using a chaotic equation.
- **Easytimetable:** Developed an automatic timetable generating website using Python's Django framework.

Online Courses/Certification

- L&T Edu Tech, Python Web Developer
- Google Cloud, Google Cloud Career Launchpad Data Analyst track

Skills

- Communication
- Critical thinking and Creative problem solving
- Flexibility and Adaptability
- Ability to maintain a high-level of professionalism
- Data-Driven decision making
- Prioritization and Time management

Languages

- English • Malayalam-Native
