SUMMARY

Data Analyst with a passion for uncovering insights and driving data-driven decisions. Eager to work on real-world projects that utilize data to derive actionable insights.

SKILLS

Programming Languages: Python, R

Tools:

Artificial Intelligence: TensorFlow, Keras, PyTorch

Machine Learning: Scikit-learn, XGBoost

Deep Learning: TensorFlow, Keras, PyTorch

Natural Language Processing: SpaCy, NLTK, Hugging Face, Transformers

Time Series & SEM Modelling: StatsModels

Data Analytics: Pandas, NumPy, Matplotlib, Seaborn

EDA (Exploratory Data Analysis): Pandas Profiling

Algorithms & DSA: Leetcode, Codeforces (Python)

Excel: Pivot Tables, Power Query

Data Engineering: Apache Spark, Hadoop, ETL processes

Version Control: Git, GitHub

Data Visualization: Power BI, Tableau

Cloud Platforms: AWS, Google Cloud, Microsoft Azure

Web Applications: Streamlit

Soft Skills: Communication, Presentation, Time Management, Adaptability, Problem Solving, Attention to Detail, Critical Thinking

EDUCATION

M.Sc. Data Analytics with BioAI	2023-2025
--	-----------

Digital University Kerala, Trivandrum, India

B.Sc. Forensic Science	2020-2023
-------------------------------	-----------

VPMM College of Arts & Science, TamilNadu, India

PROJECTS

Fabric Sense: Developed an application for thread counting aimed to automate the process of counting threads for quality assurance in the handloom industry, utilizing image detection techniques.

Entity / Key Phrase Extraction from Disaster Tweets: Worked on extracting relevant entities and key phrases from disaster-related tweets to aid emergency response teams in real-time analysis.

Solving Convection-Diffusion Challenges Using FEM in MATLAB: Implemented finite element methods to solve complex convection-diffusion problems with applications in physics and engineering.

CERTIFICATIONS

Data Analyst Learning Path - Google Cloud

Introduction to Generative AI Learning Path

Google Cloud Data Analytics Certificate

Introduction to Data Science - Cisco

EXPERIENCE

Forensic Science Lab, SP Office Trivandrum

Trivandrum, India

15-days Internship Program

Nov-2022

Participated in a 15-day internship program focusing on forensic science techniques and procedures.

Assisted forensic experts in various tasks, including evidence collection, analysis, and documentation.

EVENTS

Participated in a Blockchain Hackathon

September 2024

LANGUAGES KNOWN

English, Tamil, Malayalam, Hindi

DECLARATION

Data Analyst with a passion for uncovering insights and driving data-driven decisions. Eager to work on real-world projects.
