

DATA ANALYST

Driven and passionate Data Analytics student with a specialization in Bio AI, eager to apply academic knowledge in a dynamic role. Committed to continuous learning and staying updated on industry trends, I am enthusiastic about contributing my skills and technical expertise to innovative and challenging projects.

EDUCATION

Bachelor's of Science (BSc) in Computer Science

College of Applied Science, Vazhakkad , Malappuram
2020 - 2023

MSc. Data Analytics and Bio AI

Kerala University of Digital Sciences, Innovation
and Technology
2023-2025

PROJECTS

• Suicide ideation detection from text

This project is a Streamlit web application. It uses a pre-trained machine learning model to analyze text and classify whether the user has suicidal thoughts.

• Simple pneumonia detection

This project is a pneumonia classifier web application built with streamlit . It predicts whether a patient has bacterial or viral pneumonia based on set of symptoms

• DETECTION OF DEPRESSION USING USERS TEXT WITH AID OF MACHINE LEARNING

Detection of depression by analyzing the social media texts. It uses machine learning models to analyze the text and detects whether the non-depression, moderate depression or severe depression

• AI based mall application

The project implemented an AI based android mall application for guiding a blind person (or a normal person) to navigate entire mall using indoor localization.

SKILLS

- Python
- NumPy
- Pandas
- Excel
- C

CERTIFICATES

- Data Analyst Learning Path (Google cloud)
- Account Assistant Course

INTERESTS

- Travelling
- Drawing

LANGUAGES

- English
- Hindi
- Malayalam
